

Weather Warnings

Stay safe in upcoming winter weather conditions with these tips!

Cold weather is settling in, and now's a great time to make sure you—and your home—are prepared. As winter temperatures drop, we're sharing a simple reminder to help you stay safe and avoid unnecessary headaches: the **4 P's** of winter weather preparedness.

People

Bundle up! Dress in layers, wear hats and gloves, and limit time outdoors in extreme cold.

Check on elderly neighbors and ensure everyone has a safe, reliable heat source.

Plants

Bring potted plants indoors or cover outdoor plants with frost cloth. Be ready for freezing temps.

Pipes

Insulate pipes and let faucets drip to prevent freezing. Know your water shut-off valve location.

Pets

Keep pets warm and limit time outside. If it's too cold for you, it's too cold for them.

Taking a few simple steps now can help prevent costly damage and keep everyone safe and comfortable this winter.
